## J&S completes bank construction

COOKEVILLE — Cookeville residents may have noticed the new building with the large clock and wraparound porch going up on Jackson Street. Residents may believe they took a wrong turn and ended up in New Orleans, but actually they have arrived at Putnam 1st Mercantile Bank, which was recently completed by J&S Construction.

"This two-story building is a project J&S is proud of," said Johnny Stites, CEO of J&S. "Putnam 1st Mercantile Bank was able to open approximately two months ahead of schedule."

The bank is a two-level building that can be accessed at ground level from both the first and second floors. The second floor also features a large wrap-around porch. Another significant feature of the bank is the large clock tower, which can be seen from quite a distance in the city.

With these unique features,

the bank had a distinctive design in mind.

"J&S is proud of the relationship we have built with Putnam

1st Mercantile and our other commercial clients," Stites said. "We look forward to having the opportunity to work with them

again." J&S worked with AEI Architecture, also located in Cookeville, on this project.
