RE: Aviation Hangar-Nashville, TN

Dear Mr. Stites:

I wanted to take the opportunity to commend your team for construction of our new aviation hangar. You provided a top-notch, state-of-the-art facility and for that we are grateful.

Thanks to the dedication of your firm to quality and high standards, this project can be seen as an overwhelming success. The outstanding communication by your staff is just one example of why this extensive Design/Build project was completed ahead of schedule.

The energy-efficiencies built into this facility, including the radiant heat flooring, have given us one of the most modern facilities at BNA International Airport.

Throughout the entire project your team was courteous and particularly respectful. Their professionalism was exemplary of the criteria of excellence you have established and maintained.

It has been our pleasure to work with your team, and we look forward to working with J&S Construction on any future projects.

Sincerely,

A handwritten signature in black ink, appearing to be a stylized name, written over the word "Sincerely,".
